Student Agreement

I will give my host my first week's payment when I arrive. If a security deposit is required, I will give this to my host as well. I will also bring enough money with me to continue to pay my host weekly and to buy my own food and supplies, until I receive my first paycheck. I understand it may be two weeks or more before I receive my first paycheck.

I understand that my expectations and my host's expectations may be different. I agree to be respectful of these differences and the differences in our cultures at all times. I will ask for and I will agree to my host's house rules before I move in. If I do not pay my host the weekly compensation or if I break the house rules, I understand that I will be terminated from the program and I will have to find new housing on my own.
